

Indiana Campaign for Smokefree Air Unveils New Website

The Indiana Campaign for Smokefree Air has launched its official website that includes virtual newsletters, blog posts, press releases, links to social networking sites, and a digital petition.

The website, www.smokefreein.com, provides supporters and advocates of the Indiana smokefree air bill with more information about the coalition and the events being held as well as updating them on the status of smokefree air legislation.

Do you know someone who supports smokefree air or do you want to involve more members of your organization and networks? Ask them to visit www.smokefreein.com and click the petition link so that they can sign up to receive our newsletters, action alerts and invitations to special events!
